DESCRIPTION

1998 ASTON MARTIN V8 COUPE #91 OF 101

Finished in one of the most desirable colour combinations for this model and benefitting from low mileage and a comprehensive servicing and maintenance regime, we are pleased to offer this superb 'late model' 1998 V8 Coupe.

The Aston Martin V8 Coupe adopted the styling cues and significantly, the chassis improvements of the flagship V8 Vantage 550 supercharged model, in an elegant and more subtly styled body. Built near the end of the coach-built era of car manufacturing, just 101 of the V8 Coupe's rolled off the Newport Pagnell production line, in total. Now highly sought after, the V8 Coupe is a Grand Tourer par excellence and is refined, with a luxuriously appointed interior, generous 2+2 seating and well-balanced body styling. Attributes, which when combined with the model's effortless performance, give a superb Grand Touring experience.

Chassis number 79091 is one of the very last cars built, is distinguishable by the later style door mirrors and exterior door handles, as well as relocated powered seat switches. Finished in Rolls Royce Midnight Blue and complemented with Parchment and Pacific Blue Connolly hide interior. This excellent example much cherished by its 4 owners from new, is complete with a comprehensive Aston Martin service history, from the original supplying dealer onward, with services carried out by Aston Martin Works and highly respected AM specialists.

Purchased by its last but one owner from ourselves in 2017, an enthusiast and collector of the marque, more recently the car has been fitted with a new audio system and new set of tyres by surrey-based AM specialist's. This particular car, has also been

Immortalised and now features in the definitive AMV8 reference book, the 'Aston Martin V8' by Palawan Press. More exclusive and refined, than both its Virage and V8 predecessors, the hand built and extreme low volume production V8 Coupe's, warrant attention from enthusiasts and collectors alike. This late example is one of the finest we know and is in particularly excellent order, throughout.

Supplied with an extensive history file, including servicing and MOT records, a manufacturer's build sheet and its original, 1998 purchase invoice. This car is supplied, fully prepared to our usual high standards, by our own Heritage technicians and is now 'on the button' ready to be enjoyed by its next custodian.

Available now, for viewing and inspection at our showrooms in Hertfordshire.
