Volcano Red

DESCRIPTION

2015 Aston Martin DB9 Volante

We are delighted to offer for sale, this superbly specified, highly attractive and low mileage DB9 Volante, finished in this ‘One of One’ combination of Volcano Red over Cream Truffle hides and Obsidian Black carpets, complimented by its black convertible hood.

First introduced in 2005, the DB9 Volante has gone on to be one of Aston Martins most successful models, finally ceasing in production in 2017, before being replaced by the all new DB11. Revised and updated with each model year, it was in 2013 that the DB9 Volante received its most comprehensive update and mid-life refresh, with nearly 50% of all parts and more than 70% of all body panels changed or upgraded from the original DB9 Volante.

Significant improvements included the revised and more powerful AM11 engine specification, with increase in torque and BHP (510 bhp), the fitment of Brembo Carbon Ceramic brake discs and pads and the introduction of sophisticated multi-mode Adaptive Damping System (ADS) suspension. Intelligent engineering resulted in a 15kg weight saving and a 30% increase in chassis stiffness.

The superb 2015 DB9 Volante we now offer for sale was first supplied to its first and only owner in June 2016. Much cherished and sparingly used, servicing and maintenance has been carried out annually (9 in total) at Aston Martin service agents.

In addition to the already luxurious 2015 MY DB9 Volante specifications, notable optional extras include: Alarm upgrade, AM

Premium Audio, Red brake calipers, Piano Black and attractive 20" 5 spoke Silver wheels.

Presented in superb condition throughout, as befits the ultra-low mileage and supplied to its next owner with our usual highest standards of preparation and with 12 months warranty.

Available for viewing and demonstration now at our Hertfordshire showrooms.

- Alarm/immobiliser
- Remote central locking
- Tracker - Horizon
- Tracking device
