Exterior Colour  
Magnetic Silver

## DESCRIPTION

### 2018 ASTON MARTIN VANQUISH S VOLANTE

Offered to market for the first time, we are delighted to offer for sale this super low mileage, Vanquish S Volante, finished in Magnetic Silver over Pure Black hides, complemented by a black convertible hood.

In 2017 Aston Martin's 'Super GT' the Vanquish, was relaunched in Vanquish S Volante form, featuring a raft of updates and upgrades, including an increase in engine performance, from 568bhp to 592bhp, thanks chiefly to a larger inlet manifold, whilst revisions to the Touchtronic III eight-speed automatic gearbox provided faster shifts while being smoother around town. The aerodynamic performance was a real focus with redesigned diffuser and front splitter, contributing to add downforce and reduce front lift. Famed chassis engineer, Matt Becker, was instrumental in the development of the Vanquish S Volante model, his work delivering extra response, grip and agility whilst not compromising ride quality.

By 2017, Aston Martin had launched the DB11 which combined with the fact that a new Vanquish S Volante would have cost you in excess of £211,000, resulted in surprisingly modest sales numbers. Data supplied by our good friends at the Aston Martin Heritage Trust confirms that just 284 examples were produced for worldwide consumption, just over 100 of which (including the Vanquish S Ultimate Volante model) staying in the UK. A rare model indeed.

The particular example we now offer for sale was supplied new by Aston Martin Reading and first registered in March 2018.

In addition to the luxurious specifications of the Vanquish S Volante model, notable optional extras include; Alarm upgrade,

Carbon fibre bonnet vents, Dark anodised brake calipers, black textured exhaust tailpipe finishers, exterior carbon pack, exterior shadow pack, full length twill carbon fascia trim, Black vaned front grille, Piano Black interior trim pack, V12 side fender badges, Glass carbon fibre mirror caps, carbon fibre paddles, Satin bronze Jewellery Pack, Ventilated front seats, AM Wings headrest embroidery, Gloss carbon side strakes, Carbon twill sill plaques, One77 steering wheel and 20" 5 spoke Gloss Black diamond turned wheels. A full build record is available on request.

Serviced annually by Aston Martin Main agents, the last having been carried out in April 2026 and supplied with a full complement of keys, wind deflector, custom fit Aston Martin car cover, battery conditioner and a very suitable cherished registration number, if you play nice..

Presenting in immaculate condition, as befits the low mileage of just 4,624 from new, this highly, highly specified example of the last of a generation of VH chassis architecture, normally aspirated V12 engined Super GT, with an original price of £240,000+, now represents superb value for money and is available for viewing and demonstration now at our Hertfordshire showrooms.

## WARRANTY
