DESCRIPTION

2019 ASTON MARTIN RAPIDE AMR

Attractively finished Stirling Green, with Lime Green halo livery, over Obsidian Black leather and Pure Black alcantara interior, we are delighted to offer this tastefully specified example of the worlds fastest and most thrilling 4 door, the Rapide AMR.

The Rapide AMR made quite an impact when presented for its launch at the 2017 Geneva Motorshow. Heralding the launch of the new AMR sub brand, the Rapide was the first model to receive the AMR treatment. An extensive package of chassis, power and styling upgrades.

The various performance upgrades allowed the Rapide AMR to reach 210mph, providing the inspiration for the planned production numbers. In fact, slightly less than that number were eventually produced (188 in total) with just 47 staying in the UK.

The car we now are delighted to offer was first registered in March 2019 and has been much enjoyed by its three owners. In addition to the standard high specifications of the Rapide AMR model, notable optional extras specified when new include; Exterior Carbon pack, Lime Green graphics pack, One-77 steering wheel, Multi spoke Matte black Rapide AMR wheels, AMR signature pack and V12 side fender badges. A full build specification is available by request.

Serviced annually (7 stamps in total) by Aston Martin Main agents and most recently by ourselves in March 2026, our pre-sale

inspection confirms this car to be in superb condition throughout.

Representing the very end of a highly successful era of Aston Martin production and the swansong of the glorious normally aspirated V12 engine which, in the AMR is tuned to a whopping 595 bhp, the Rapide AMR is a car that most probably should not exist but we are very pleased indeed that it does and feel that future classic status, for this very limited run of cars, beckons.

A finer way to travel to the South of France this summer? We can't think of one!

Available for viewing and demonstration at our Hertfordshire showrooms now.
