Scintilla Silver

DESCRIPTION

2020 ASTON MARTIN RAPIDE AMR

You need a little more practicality with your performance? Well, let us present the Rapide AMR! The (at the time) world's fastest and most thrilling 4 door, the Rapide AMR.

The Rapide AMR made quite an impact when presented for its launch at the 2017 Geneva Motorshow. Heralding the launch of the new AMR sub brand, the Rapide was the first model to receive the AMR treatment. An extensive package of chassis, power and styling upgrades.

The various performance upgrades allowed the Rapide AMR to reach 210mph, providing the inspiration for the planned production number. In fact, slightly less than that number were eventually produced (188 in total) with just 47 staying in the UK.

The example we now are delighted to offer, possibly the best specified Rapide AMR we have had the pleasure of handling, is finished in Scintilla Silver, with subtle Lime Green accents, over Obsidian Black leather and Pure Black alcantara interior.

First supplied by Aston Martin Leeds to its first (lady) owner in June 2020, staying within the same family until earlier this year. Purchased most recently in June by its last owner and subsequently enjoyed on a European tour and limited occasions.

In addition to the standard high specifications of the Rapide AMR model, notable optional extras specified on this stunning example include; Bang & Olufsen Beosound Audio, Black brake calipers, Exterior Carbon Pack, V12 side fender badges, Privacy glass, Lower Valance graphics pack (Lime Green), Interior Lime Pack, One77 Full leather steering wheel and Mspoke Matte black Rapide AMR standard wheels. A full build specification is available by request.

Serviced annually by Aston Martin Main agents, our pre-sale inspection confirms this car to be in superb condition throughout, befitting the low mileage of just 10,300 from new.

Representing the very end of a highly successful era of Aston Martin production and the swansong of the glorious normally aspirated V12 engine which, in the AMR is tuned to a whopping 595 bhp, the Rapide AMR is a model we love, for its outrageous four door performance, ride quality, sublime exhaust note and build quality. A head turner wherever it is shown, with surefire future classic status.
