DESCRIPTION

2017 ASTON MARTIN DB9 GT VOLANTE 'LAST OF 9' LIMITED EDITION

One of the most exquisite Aston Martin models, from the famed 1st generation Gaydon production era, that you may well have never heard about, the DB9 GT Volante 'Last of 9 Edition'.

Introduced in 2015 toward the end of DB9 production, the GT model was launched with an enhanced specification including a 540 bhp

engine, carbon ceramic brakes, revised styling and a tailored luxury interior, before production of the DB9 ceased in 2016.

As production of the DB9 GT ended, a specially equipped and specified end of line edition entitled, 'Last of 9' was discretely announced to Aston Martin main agents, in Europe only, with the cars being allocated on a first come, first served basis.

An exceptional fixed specification, developed by Q division, fittingly celebrates the heritage of DB models past. It is one of these very Last of 9 models we are proud to offer, one of only nine Volantes constructed in total, for all markets and one of just two examples built in Right-Hand Drive configuration.

Finished in classic (Q Special) Cumberland Grey with Bitter Chocolate hides and contrasting Tuscan Tan stitching and Sandstorm Gold Pearlised Leather welting and stunning Zebrano wood Fascia Trim panel, the 'Last of 9' by Q reached new levels of interior refinement with tasteful finishes and grace notes which when combined with the ultimate performance delivered the DB9 GT, produces an intoxicating blend of luxury and performance. Details of the unique 'Last of 9' specifications are listed below.

We are delighted to offer this exceptional car, one of only two Volantes built for the UK market, with just 5,255 highly enjoyable miles covered by its three previous owners. Accompanying the car is a 4-piece set of matching Aston Martin luggage, leather bound build book containing images of this car's construction, a bespoke 'Last of 9' car cover and all its originally supplied equipment.

Serviced annually, regardless of mileage and remaining in virtually 'as new' condition throughout, having been professionally stored whilst not in use.

Undoubtedly, Aston Martin's most successful production car ever, the DB9 can lay claim to being responsible for bringing Aston Martin firmly into the modern era of manufacture and in promoting today's enviable brand recognition. Delivering turbine like engine performance, agile handling and timeless styling, the DB9, Last of 9, we are proud to offer is a highly fitting acknowledgement to the long-lived success of the DB9 and would make a fitting addition to any discerning Aston Martin collection.

This fabulous, ultra rare 'Last of 9' Edition DB9 GT Volante is available for viewing and demonstration now at our Hertfordshire showrooms.
