Pure Black Alcantara / Copper Tan	N/A				

### DESCRIPTION

#### 2017 ASTON MARTIN V12 VANTAGE AMR – MANUAL

Fittingly finished in Stirling Green / Lime Green Halo colour scheme over Pure Black Alcantara with Copper Tan and accents, we are delighted to offer this superb V12 Vantage AMR.

Launched in June 2017, the V12 Vantage AMR (Aston Martin Racing) was conceived and produced in celebration of the Aston Martin's racing success, in particularly with their win at the Le Mans 24 hrs that year. Equipped with the last and most powerful variant of the sonorous and naturally aspirated 6.0 litre V12 engine, no longer built. The Vantage AMR V12 engine, rated at 595 bhp and mated to a 7-speed manual transaxle transmission, is a highly fitting tribute to

its endurance racing counterpart, giving extreme levels of performance whilst affording high levels of comfort.

Just 31 V12 Vantage AMR 7-speed manuals were manufactured in Right Hand Drive, with only 19 for the UK market from a total of 75 cars built before production ceased. In addition to the 2018 model year specifications, notable optional extras specified with this example include the lightweight carbon fibre seats, lightweight gloss black wheels, Carbon interior pack, Lime Green colour coded brake calipers and distinctive halo package.

Having covered just 5,900 miles from new, our pre-sale inspection confirms this car to be in superb condition throughout, fully protected with Topaz PPF. Its last service having been carried out by Aston Martin in November 2023 and with the car receiving a set of new Michelin Pilot Sport tyres, 500 miles ago.

Supplied to its next custodian with its scheduled service, pre delivery preparation and detailing, 12 months MOT and 12 months warranty.

The combined attributes of naturally aspirated, highly audible, smooth and visceral sportscars with manual transmissions, are now becoming a 'thing of the past', as the industry marches to a turbo, hybrid and electric future. The V12 Vantage AMR is a modern classic in every sense, a homage to racing glory and extremely rare. In exceptional condition and with low mileage, this superb 'last of a type' supercar is highly recommended to the new era collector or enthusiast alike.

Available for viewing and demonstration now at our Hertfordshire showrooms.
