### DESCRIPTION

#### 2007 ASTON MARTIN VANQUISH S

We are pleased to offer this excellent, low mileage, late production example of Aston Martin’s landmark model, the Vanquish S.

With its heroic, iconic and timeless styling, combined with highly capable, ultimate Grand Tourer performance and offering a sumptuous, comfortable cabin, the Vanquish S model is firmly established as a must have ‘Young Timer’ classic car to today’s enthusiast and collector.

When production of the Vanquish S, at the Newport Pagnell Works, ceased in 2007, just 1,086 examples had been produced, of which, just 293 were supplied in UK RHD specification.

With the Vanquish bloodline now in its third generation, this original and first generation Vanquish S, was the last model hand built by the skilled and renowned craftsmen at Newport Pagnell and the first

Aston Martin model to be constructed on the new Aluminium and Carbon Fibre chassis. Powered by the famed and mighty Aston Martin 6 litre V12 engine, producing 520 bhp and delivering a top speed of over 200 mph, the Vanquish S delivers superb performance with exceptional ride quality and comfort.

The new design language of the Vanquish, styled by renowned designer Ian Callum, was enhanced for the Vanquish S model with a rear lip spoiler, front splitter and revised front grille, newly equipped with improved suspension, larger brakes and a re-engineered 'paddle shift' transmission operating system. All considerable improvements to the earlier non-S variant.

The Vanquish S that we now delighted offer certainly does not disappoint in any regard and can be regarded as a 'tick box' example; low mileage, desirable colour combination, extensive service and maintenance history and in superb condition throughout.

First supplied by Aston Martin's Channel Island's agent, Jacksons, and registered in Jersey in January 2007, before being imported to mainland UK in 2012, this late production Vanquish S is finished in Oynx Black over luxurious Black Cherry hides and carpets, one of only 2 UK RHD examples, build in this combination.

In addition to the high standard 2007 model year specifications of the Vanquish S model, this example is fitted with heated seats, Bluetooth, iPod connectivity, a heated front screen, Red brake calipers, body colour door releases, front stoneguards and 2+2 seating configuration. Latterly, this car has been fitted with a useful rear parking camera.

For many years, forming part of a significant Aston Martin collection and housed in ideal, climate-controlled garaging, we, earlier this year, sold this example to a local marque enthusiast who enjoyed the car for European tours before offering the car in part exchange on one of our other models, as he works his way through the range!

Our pre-sale inspection confirms the car to be in excellent condition throughout, the cosmetic presentation befitting the low mileage covered.

Supplied with a substantial history folder, full preparation, to our usual high standards, 12 months MOT, 12 months warranty, a custom fit Aston Martin car cover and battery conditioner.

Available for viewing and demonstration at our Hertfordshire showrooms.
