Interior Trim	Fuel Consumption				
Magnolia hides piped in Pacific Blue	13.4 mpg				

DESCRIPTION

1999 Aston Martin V8 Volante Long Wheel Base (LWB)

First registered and delivered new in 1999, finished in Mendip Blue with Magnolia hides piped in Pacific Blue and fitted with a matching Navy-Blue mohair fabric, fully power operated roof.

Supplied to its first owner, via Aston Martin agents Portfield Garages, in May 1999, this rare and well specified V8 Volante LWB is one of only 7 examples finished in this attractive colour, constructed in RHD for the UK market and is 1 of only 63 built, in total.

With a list price when new of over £170,000 the last convertible model, hand built by the highly skilled craftsmen and engineers at

the Newport Pagnell factory, the LWB Volante is considered by owners of the model to be consummate in its Grand Touring capability.

Purchased from ourselves by the last owner in 2006 at 9,000 miles, maintenance has subsequently been carried out regularly by Aston Martin Works and Aston Martin main agents and annually MoT'd, covering just 10,000 miles in the last 19 years of ownership. Recently serviced to the manufacturers schedule and fully prepared by ourselves, including the fitment of new tyres, this delightful and low mileage Volante LWB, is ready for the motoring season ahead.

Produced between 1996 and 1999, the Long Wheelbase V8 Volante, answered customer calls for a true four seat convertible. With a 200mm extended wheelbase, improved rear passenger legroom and increased boot space, the Volante LWB is a spacious four-seater, with touring capabilities far exceeding previous models of the Volante.

The Aston Martin all alloy V8 engine now producing 350 bhp, driving a 4-speed automatic transmission, delivers spirited and relaxed high-speed cruising. With a luxuriously appointed Connolly hide interior, fitted with 8-way powered seats, climate control and Burr walnut interior fittings, a fully power operated roof, when added to the inherent ride qualities of the long wheel base chassis, produce a well resolved luxury Grand Touring experience, for two or four people and their luggage.

Now 25+ years old, this model is now eligible for importation and use in the United States (where it was not originally available) and can be enjoyed in almost all territories worldwide.

Supplied fully prepared, inclusive of 12 months warranty, a comprehensive service history file of a factory build record card, service invoices and MoT certificates, the original owner's handbook, tools and vehicle jack, warning triangle and battery conditioner.

Available for viewing and demonstration now, at our Hertfordshire showrooms.
