DESCRIPTION

2016 ASTON MARTIN DB9 GT VOLANTE

Finished in Oynx Black over Obsidian Black Caithness leather hides with Spicy Red accents and complimented by the Black convertible hood, we are delighted to offer to market this superb, low mileage and highly specified example of the 'last of the line' DB9 GT Volante.

The DB9 GT, revealed in June 2015, in Coupe and Volante form, was described by Aston Martin as the 'ultimate incarnation of the DB9' with the car representing the end of the run of one of the marque's most successful models and packed with numerous cosmetic and performance enhancements. Notable improvements featuring in the DB9 GT specification include; uprated engine performance to 540bhp, the arrival of the AMi II touch sensitive infotainment system (which is Apple Car Play enabled), 'GT' badges, engraved fuel cap, sill plaques and seat embroidery, unique micro perforated

fluted seat inserts and door inserts, revised headlight and tail light treatments and new ten-spoke 20-inch alloy wheels.

To consider the DB9 GT as a simple 'run out model' is a gross simplification. The combination of the numerous additions and refinements, complimenting the many years improvement and refinement the DB9 model received, all add up to a highly pleasing ownership experience.

The 2017 Model Year example we are now pleased to offer is one of just 269 built, with just 86 for the UK RHD market.

In addition to the standard luxurious DB9 GT Volante specifications, notable optional extras specified on this example include; Obsidian Black alcantara steering wheel, Red brake calipers, full length Piano Black fascia trim and Piano Black interior trim pack, GT logo headrest embroidery, Aston Martin 700W Premium audio, Black textured tailpipe finishers, Carbon fibre gloss mirror caps, GT Engraved Fuel Filler cap, Carbon side strakes, Carbon tail lamp finishers, Black side window finishers and attractive 5 spoke gloss black diamond turned wheels. A full build specification is available by request.

Supplied by Aston Martin Reading and first registered in November 2016, servicing has been carried out at Aston Martin main agents and most recently ourselves in June 2025. With less than 10,000 miles covered, our pre-sale inspection confirms the vehicle to be in superb, virtually unmarked condition, throughout.

Included with the car is a bespoke DB9 custom fit car cover, full complement of keys, owner's manual, history file, battery conditioner, wind deflector and 12 months warranty.

A superb, highly specified, low mileage, low owners' example of one of Aston Martins most accomplished models of recent times.

Available for viewing and demonstration now at our Hertfordshire showrooms.
