Obsidian Black	18.2 mpg				

DESCRIPTION

2010 DBS 'Carbon Black' Edition – 1 owner and 6k miles from new!

We are delighted to offer to market, this exceptional, 'Collector Grade' example of the Carbon Black Edition DBS.

The DBS is now recognised as one of the most accomplished and highly regarded models of the Gaydon production era. With timeless styling, 'Bond Car' credentials and still impressive performance capability, the DBS is firmly establishing its status as a future classic. Produced for just 4 years, a total of just 2,500 examples were built, for global consumption, 900 of which were RHD.

During the production run, a number of limited-edition model variants were offered by Aston Martin, including the 'Carbon Black' Edition, announced in 2010. The Carbon Black edition featured

bespoke Carbon Black metallic paint, Bang & Olufsen 1000W audio as standard, Obsidian Black leather with contrast silver stitching, piano black fascia trim, gloss black and diamond turned alloy wheels and magnum silver meshes. A bright finished grille and front parking sensors (normally an option) complete the exterior detailing.

Whilst not a numbered limited edition, the Carbon Black Edition was limited to just a single car per dealer but our sources at the Aston Martin Heritage Trust have confirmed that just 157 cars were delivered worldwide, 50 in RHD. The price of the Carbon Black edition was approximately 5% higher than a standard DBS.

The superb 2010.75 model year example we are now delighted to offer was first registered in April 2010 and benefits from annual servicing, at Aston Martin main agents and respected marque specialists, including its last service in 2024 by AM Chichester.

Benefitting a professional detail and full PPF coverage in 2023 (Invoice provided in file), the condition, throughout, is of the very highest quality. The exterior is unmarked and the cabin still presenting and smelling like a new car. This is the best presented DBS we have handled in some time.

In addition to the Carbon Black specifications, optional extras specified on this example include 2+2 seating, polished alloy tread plates, Gloss Black + Diamond turned wheels, and full length Piano Black fascia trim. Latterly, this vehicle has been fitted with Apple Car Play, rear parking camera and exhaust valve controls.

Supplied to its next owner inclusive of its next scheduled service, with 12 months MOT, 12 months warranty, a custom fit indoor car cover, battery conditioner, AM umbrella, history folder, and full compliment of keys.

Available for viewing and demonstration now at our Hertfordshire showrooms.
