DESCRIPTION

2018 ASTON MARTIN V12 VANTAGE AMR ROADSTER

We are delighted to offer this exceptional, ultra-low mileage example of the super rare, V12 Vantage AMR Roadster, finished in Scintilla Silver with Ceramic Grey AMR stripe over Pure Black and Phantom Grey hides.

Launched in June 2017, the V12 Vantage AMR, the final production derivative of the V12 Vantage, was conceived and produced in celebration of the Aston Martin's racing success, in particular with their GTE class win at the Le Mans 24 hrs that year. Equipped with the last and most powerful variant of the sonorous, naturally aspirated 6.0 litre V12 engine, the AMR specification producing 595 bhp which when mated to the 7-speed (dog leg) manual gearbox, is an absolute thrill to drive and a highly fitting tribute to its endurance racing counterpart.

Incredibly, just 29 V12 Vantage AMR Roadsters were built, for worldwide consumption, 20 in UK RHD specification, making this one of the very rarest variants of one of the most admired Aston Martin models, a real collector's item.

This particular example was registered for use in April 2018. Finished discretely in Scintilla Silver over Pure Black hides with subtle Phantom Grey accents, notable optional extras specified include; Aston Martin 700w Premium Audio, Dark anodised brake calipers, full length twill carbon fascia trim, front grille carbon, Piano black interior trim pack, reversing camera, AMR headrest embroidery, Lightweight Gloss Black wheels, Sports seats and wind deflector.

Having covered just 856 miles from new and stored in a professional, climate-controlled facility when not in use, this car can accurately be described as in 'as new' condition throughout. Servicing has been carried out annually by Aston Martin Works and ourselves will be supplied to its next owner with our usual highest standards of preparation and 12 months warranty.

A distinctive, model relevant registration number is also included.

The combined attributes of naturally aspirated, highly audible, smooth and visceral sportscars with manual transmissions, are now becoming a 'thing of the past', as the industry marches to a turbo, hybrid and electric future. The V12 Vantage AMR is a modern classic in every sense, a homage to racing glory and extremely rare.

In 'as new' condition and with ultra-low mileage, this tastefully specified, superb 'last of a type' supercar is probably unrepeatable and highly recommended to the new era collector or enthusiast alike.

Available for viewing and demonstration now at our Hertfordshire showrooms.
