Pure Black	16.6 mpg				

DESCRIPTION

2018 ASTON MARTIN V12 VANTAGE AMR ROADSTER

Finished in Zaffre Blue over Pure Black hides, we are delighted to offer this 7-speed manual 'last of the line' limited edition V12 Vantage AMR Roadster. Highly specified, low mileage and in superb condition throughout.

Launched in June 2017, the V12 Vantage AMR, the final production derivative of the V12 Vantage, was conceived and produced in celebration of the Aston Martin's racing success, in particular with their GTE class win at the Le Mans 24 hrs that year. Equipped with the last and most powerful variant of the sonorous, naturally aspirated 6.0 litre V12 engine, the AMR specification producing 595 bhp, which when mated to the 7-speed (dog leg) manual gearbox, is an absolute thrill to drive and a highly fitting tribute to its

endurance racing counterpart.

Incredibly, just 29 V12 Vantage AMR Roadsters were built, for worldwide consumption, 20 in UK RHD specification, making this one of the very rarest variants of one of the most admired Aston Martin models. A real collector's item!

This particular example was supplied by Aston Martin Nottingham and first registered in January 2018.

Finished in the stunning colour of Zaffre Blue, one of just 4 UK RHD examples in this colour. In addition to standard V12 Vantage AMR specifications, notable options specified on this example include; AM 700w premium audio, Carbon Fibre Lightweight seats, Red brake calipers, full length twill carbon fascia trim, front grille carbon painted, front parking sensors, Piano black interior trim pack, Interior carbon pack, Gloss Carbon Fibre mirror caps, Carbon tail lamp finishers, carbon fibre door handles, AMR headrest embroidery, reversing camera, black AMR wheels and wind deflector. A full build specification is available on request.

Latterly, a carbon fibre engine beauty panel has been fitted. The original being available with the car if to the new owners preference.

Much cherished by its sole owner, a New Era Aston Martin collector, this car is presented in excellent condition throughout, with only the lightest evidence of use, the paintwork having been protected by Xpel PPF, fitted when new. Servicing has been carried annually, to schedule, with corresponding invoices included in the full history file.

The combined attributes of naturally aspirated, highly audible, smooth and visceral sports cars with manual transmissions, are now becoming a 'thing of the past', as the industry marches to a turbo, hybrid and electric future. The V12 Vantage AMR is a modern classic in every sense, a homage to racing glory and extremely rare.

Supplied with our usual high standards of pre delivery preparation and final detailing, with 12 months MOT and 12 months warranty, along with a full complement of keys, bespoke custom fit car cover, wind deflector and battery conditioner. A desirable, model relevant, cherished registration number, is also included in the sale.

Available for viewing and demonstration now at our Hertfordshire showrooms.
